Sorry for the slow reply, I contacted Sue about some of the previous case files. I don't have a final copy of the inspection report yet. I think in the rush to respond to the OEPA action we didn't followup on the inspection as we do typically.

The two technical contacts we worked with were:
Crellin Scott - Assistant Director of Environmental Compliance
Drew Hudson - Environmental Compliance Manger

I think Crellin was above Drew in the hierarchy, but I don't know how much Crellin was involved with the 308 response since he was hired after the facility received the initial request. Both work for Murray and not for the individual mines (AEC and TOVCC). I am having trouble locating phone numbers for them. I will keep looking.

I think Sue's main point of contact was the Murray Attorney, Chris Van Bever, 859-514-1734. If you are comfortable contacting him directly he maybe the best place to start. If you contact Crellin or Drew they may reroute you to Chris anyway.

I will let you know if I can find any better contacts.

Jonathan,
Can you tell me who in AEC was your point of contact in working on the Feb 2011 308 request and response?
Kevin has instructed me to follow up with AEC re the data thanks Janet
